

schaal 1:200

The diagram illustrates a cross-section of a road structure. At the top, a layer of concrete is labeled "betonbiels tegen erosie" with a dimension of "0.35" and a note "variabel". Below this is a layer of "zitelement beton, erosiekerend". A label "op 1 oor" points to a specific layer. The main body of the road is labeled "molgoot Basi kei". Below this is a "opsluitband tegen erosie" and a "gemenqde verharding (tegels, klinkers, keitjes etc.)". A label "Kratten met mogelijkheid tot inspectie" points to a layer within the main body. A dashed line indicates a slope on the left side.
